Ollie's Ocean Adventure

Read the short story and answer the questions

Ollie loved the ocean. He would spend hours building sandcastles, collecting seashells, and splashing in the waves. One sunny day, Ollie was exploring a tide pool when he spotted a small, colorful fish swimming among the rocks. Curious, Ollie scooped the fish up in his hands. It was a tiny clownfish with bright orange and white stripes. Ollie gently placed the fish back into the tide pool and watched as it darted away. As he was walking back to the shore, Ollie felt a tug on his fishing line. He pulled it up and was surprised to find a big, shiny crab clinging to the hook.

Ollie carefully removed the crab from the hook and tossed it back into the ocean. He smiled as he watched the crab scuttle away. Ollie knew that the ocean was a magical place full of amazing creatures, and he was grateful for the opportunity to explore it.

One afternoon, Ollie and his family went on a boat trip. They sailed out into the open ocean and saw dolphins leaping out of the water. Ollie was amazed by their grace and agility. As they continued sailing, they spotted a large pod of whales. The whales were enormous, and they breached the water, sending huge sprays of water into the air.

Ollie was so excited that he forgot to breathe. His mom had to remind him to take a deep breath. Ollie laughed and smiled as he watched the whales. It was the most amazing sight he had ever seen.

When they returned to shore, Ollie couldn't stop talking about his ocean adventure. He told his friends all about the clownfish, the crab, the dolphins, and the whales. His friends were amazed and asked him many questions. Ollie loved sharing his experiences with his friends. He knew that the ocean was a special place that could bring people together. And he couldn't wait to go back and explore it again.
