Multiplication Word Problems

Solve the following multiplication word problems. Show all of your work.

Timmy is having his friends over for game night. So, he decided to prepare snacks and games.

Timmy has 6 friends coming over and he made 2 sandwiches for himself and each one of them, how many sandwiches did he make?

Timmy's friends also brought food. If each of them brought 4 slices of pizza and 5 bags of chips, how many slices of pizza do they have in total?

He also made lemonade, enough for all 7 of them to have 3 cups. How many cups of lemonade in all?

Timmy's mom also gave Timmy and his 6 friends an ice cream cone. How many ice cream cones did his mom serve?

Then he started to set up the games for his 6 friends. If each game takes 5 minutes to set up and he prepared a total of 5 games, how many minutes did it take for Timmy to prepare all the games?

Lastly, Timmy tried to compute his expenses for the game night. If he spent \$8 for each game they played and they played a total of 5 games, how much did he spend on game night?
